| Charge

Charging Case Indicator

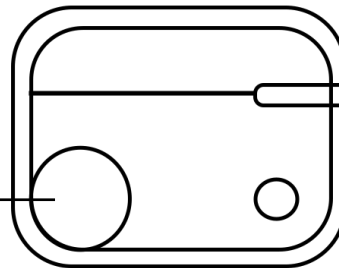

When the charging case is charging, the digital display will show fluctuating single-digit numbers indicating current battery percentage.

Once fully charged, the display will show **"100%"** to indicate completion.

Earphone Charging Indicator

When the earphones (left or right) are charging, the earphone icon will flash. The digital display automatically turns off after 10 seconds.

| Feature Description

Power Status Indicators

Power On: Open the case and take out the earbuds. White light flashes 3 times. (Prompt: *"Power on"*)

Power Off: Place earbuds back into the case and close the lid. They will power off automatically and start charging.

Earphone Pairing Logic

Successful Dual Pairing: When paired successfully, the main earbud flashes, and the secondary earbud light turns off.

Smart Switching: Left and right earbuds can switch freely and auto-reconnect instantly after power-on.
